Company Overview

Al Salam Steel Workshop was established in 1987 in Ajman, UAE.
We undertake steel and aluminium fabrication and installation for residential, commercial and industrial projects.

Scope of work

- Structural steel frames and warehouse steel works
- Steel mezzanine floors and metal decking
- Car parking shades and cantilever canopies
- Covered walkways, entrance roofs and steel sheds
- Steel and aluminium pergolas
- Gates, doors, railings and fencing
- Glass and steel majlis enclosures
- Custom steel and metal fabrication

Technical capabilities

Materials

Mild steel, galvanized steel and aluminium

Finishes
